EDUCATION

Rajasthan Technical University, Kota

Rajasthan, India

B.Tech, Computer Science Engineering, GPA: 9.23 / 10.0

2021- 2025

Coursework: DSA, Object-Oriented Programming, Operating Systems, Artificial Intelligence, Web Development, SQL, DBMS.

Honors: State Government Mathematical Genius Award (2016), Runner up in IITJ Hackathon (2022).

EXPERIENCE

Tech Lead – medihut.in

Remote, Delhi

React, React Native, Node.js, AWS EC2, Nginx, PostgreSQL, Docker

Feb 2025 – Present

- Architected and led development of a Blinkit-inspired digital medicine delivery platform for underserved Bihar regions.
- Engineered 3+ **AWS EC2** microservices with **OCR**, **Redis**, and **S3**, cutting latency by **30%** and enhancing fault tolerance.
- Led **Agile/Scrum** teams in iterative development, delivering bi-weekly releases ahead of schedule.

Associate Software Engineer – CoReCo Technologies

Pune, India

React, Next.js & Django

Feb 2025 – Oct 2025

- Built a responsive Audible-like platform in **React** with optimized APIs, achieving <200ms load times in testing.
- Developed and integrated **15+ RESTful APIs** using Django & React, cutting feature shipping time by **20%**.

Software Engineer Intern – DRDO, Institute for Systems Studies & Analyses (ISSA)

Remote, Delhi

MATLAB, Mathematical Modeling & Research & Literature Review

January 2025 – August 2025

- Built optimization and simulation models in **MATLAB** and **Python** for military operations research.
- Reduced computation time by 20% through algorithmic enhancements and code profiling.

Project Manager – Mainstreet Marketplace

Mumbai, India

Notion, Excel, Financial Forecasting

Dec 2024 – Jan 2025

- Spearheaded development of a custom CRM, automating **10+ workflows** across creative and finance teams.
- Reduced process time by 50% and improved operational efficiency by 125% across both departments.

Software Engineering Intern – Infynity Applications | Zwennpay

Mauritius, Africa

React, Docker, Figma

May 2024 – July 2024

- Led design and deployment of Zwennpay's mobile payments platform website using **React**, reaching **5k+ users in beta**.
- Automated deployments with **CI/CD** pipelines using **GitHub Actions** & **Docker**, reducing manual efforts by **50%**.

PROJECTS

SoloVoyage | solo-travel.in

July 2025

Next.js, Node.js, PostgreSQL, Google Gemini API, REST API

- Engineered an AI-powered solo travel assistant with **Gemini API**, generating personalized itineraries for 100+ daily beta users.
- Designed a scalable backend with **Node.js** & **PostgreSQL**, ensuring **<200ms query response time**.

Macromate | [Link](#) | [Demo](#)

Feb 2025

React Native, Python, Google Gemini API, PostgreSQL, REST API

- Developed a **cross-platform fitness tracking app** with **React Native** & **Node.js**, enabling **real-time nutrition & workout logging**.
- Implemented **data visualization for progress tracking** and **reminder notifications**, reducing manual tracking efforts by 60%.

Lumen | [Link](#) | [Demo](#)

Oct 2024

- Engineered a memory-driven AI assistant with **Gemini 1.5 Pro**, NLP, and speech recognition, delivering **90%** query accuracy.
- Deployed on **Raspberry Pi 4** with real-time processing of **visual & auditory data via webcam & microphone**.

Thrifty | thrifty.wtf | [Demo](#)

Aug 2024

Next.js, Node.js, OpenAI Whisper, MongoDB, Firebase, REST API

- Created a **student-focused marketplace platform** using **Next.js** & **Node.js**, attracting **300+ student users in pilot launch**.
- Integrated **OpenAI-powered chatbot** to auto-generate personalized user profiles, reducing onboarding time by **60%**.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, C, MATLAB, SQL, HTML/CSS

Frameworks: React, Next.js, React Native, Node.js, Flask, Django

Cloud & DevOps: AWS (EC2, S3), Docker, Nginx, Firebase, GitHub Actions (CI/CD), Redis

Databases & Tools: PostgreSQL, MongoDB, BigQuery, Postman, Git, Jupyter, Excel (Advanced), Figma, Notion, Jira

Concepts: RESTful APIs, Microservices, LLM integration, CI/CD, System Design, Agile/Scrum, Regression, Classification, RAG, EDA, DevOps
